Amendment dated August 9, 2005
Reply to Office Action of May 10, 2005

REMARKS/ARGUMENTS

Claim 10 - 20 are pending in the application for consideration. Claims 1 - 9 have been canceled.

Reconsideration of the application is requested in view of the amendments made in the claims and the statements appearing below herein.

1. Claims 6 - 9 have been canceled pursuant to the requirement for restriction.

2. The rejection of claims 1 - 5 under 35 U.S.C. § 103(a) is no longer an issue since these claims have been canceled.

3. Claims 10 - 20 have been allowed. Amendments have been made in claims 10, 16, 17, 18 and 20 to even more particularly point out and distinctly claim the subject matter of applicant's invention. The amendments made in these claims do not affect the scope of the subject matter of the claims.

In summary, claims 10 - 20 are in the application and are proper in form for allowance and in substance are directed to a wholly novel and patentable method for imaging a digital display onto an image plane.
